User is able to login with old password

Attach | Create subtask | Link issue ∨ | ...

Environment

Staging

Description

Severity: Major

Pre-condition:

User has changed their password to the new one

Test Data:

Username/email: usertest1234@example.com
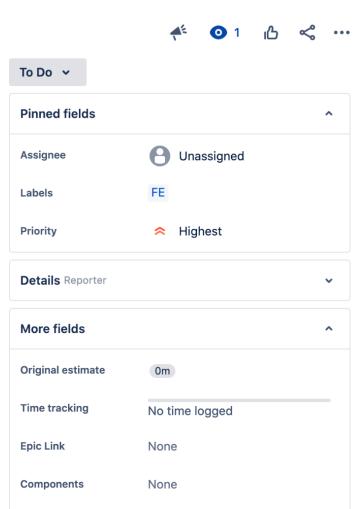

Password: passwordexample1234

Steps to Reproduce Bug:

1. Open the login page
2. Fill in the username and password field with a valid username and old password
3. Click on "Login" button

Expected Result: User is unable to login and an alert message should show up.

Actual Result/Bug: User is able to login.
